

Forest Grove Historic Resource

1940 Pacific Avenue – Forest Grove National Bank

Forest Grove National Bank was constructed in 1909 and underwent a complete remodel in the 1950s. The current structure bears little resemblance to the earlier building. The entrance has been moved and signage has changed. The 2 and ½ story commercial building is a Modern Style Building. The building features a flat roof, metal windows, concrete and ceramic tile siding and masonry structural frame and wall construction.
