

DON'TS

- Don't pile leaves in the street before your assigned date listed below.
- Don't blow leaves into the middle of the street. Leaves blown into the street are spread too thin and too wide to be picked up by the vacuum.
- Don't put leaves in bags. City crews will not pick up bagged leaves.
- Grass clippings and other yard debris will not be picked up.

Citizens should use the yard debris green roller carts for leaves that fall in their yards.

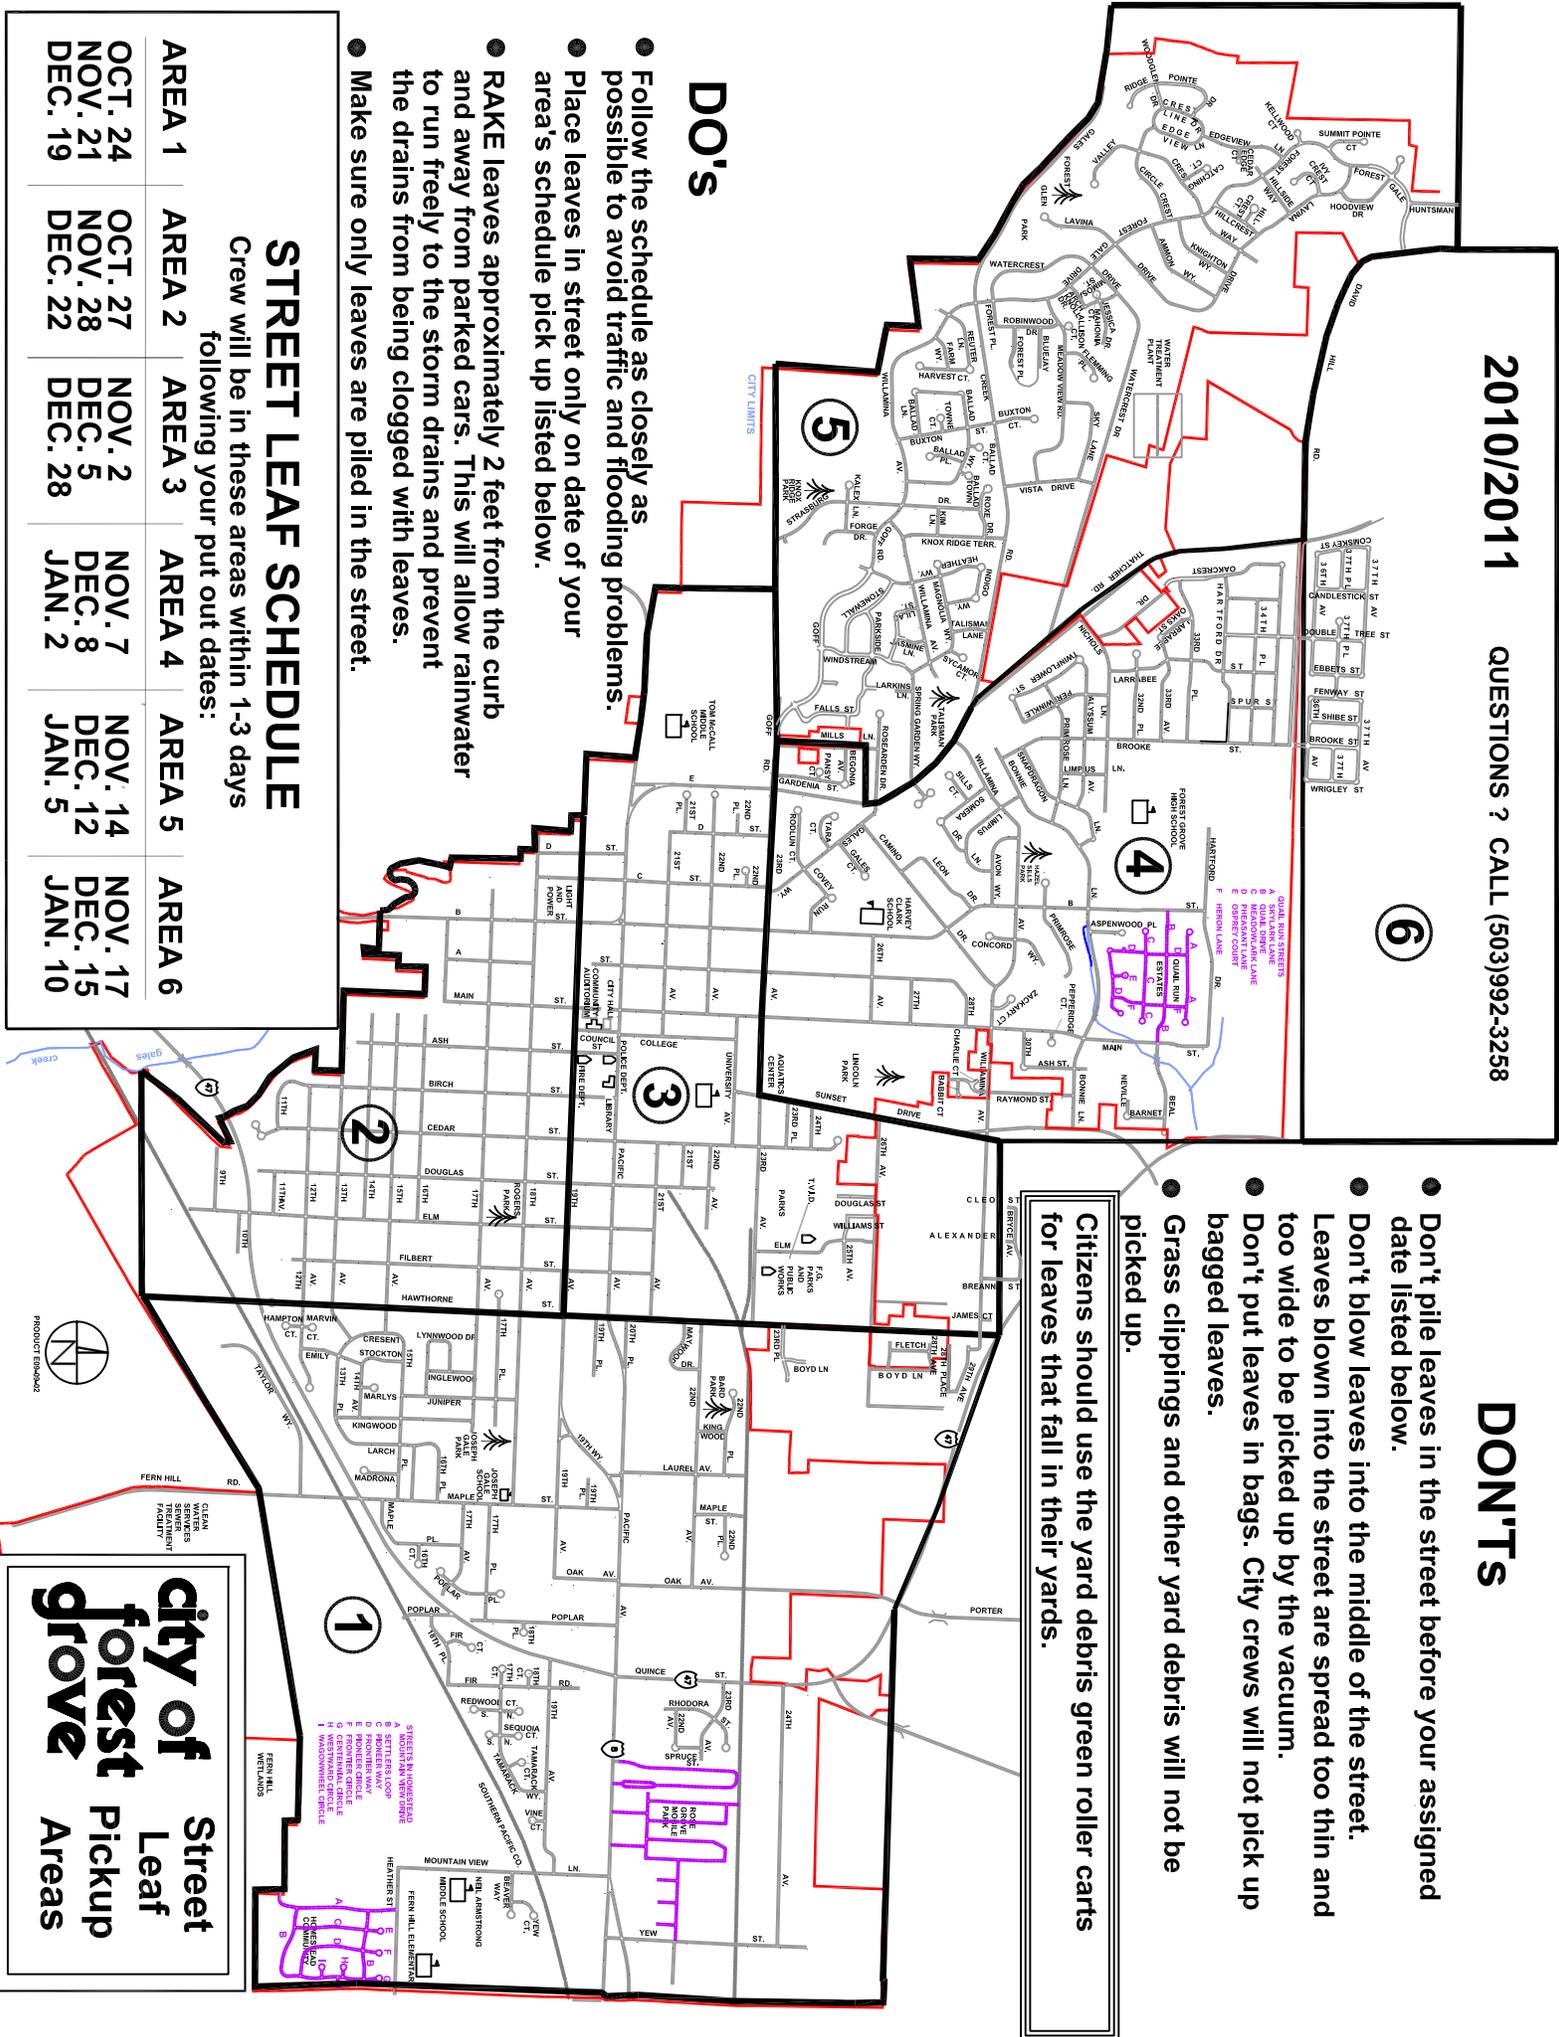

DO'S

- Follow the schedule as closely as possible to avoid traffic and flooding problems.
- Place leaves in street only on date of your area's schedule pick up listed below.
- RAKE leaves approximately 2 feet from the curb and away from parked cars. This will allow rainwater to run freely to the storm drains and prevent the drains from being clogged with leaves.
- Make sure only leaves are piled in the street.

STREET LEAF SCHEDULE

Crew will be in these areas within 1-3 days following your put out dates:

AREA 1	AREA 2	AREA 3	AREA 4	AREA 5	AREA 6
OCT. 24 NOV. 21 DEC. 19	OCT. 27 NOV. 28 DEC. 22	NOV. 2 DEC. 5 DEC. 28	NOV. 7 DEC. 8 JAN. 2	NOV. 14 DEC. 12 JAN. 5	NOV. 17 DEC. 15 JAN. 10
