

PARKS & RECREATION

SOME OUTDOOR RECREATION REMAINS; COOPERATION NEEDED NOW

Spring means nicer weather, and Forest Grove residents should be informed about outdoor recreation opportunities as well as closures and restrictions in place to reduce personal exposure to COVID-19 and to protect first responders.

Mental health experts recommend fresh air and time in nature, but this must be balanced with the physical distancing mandated by the state-wide executive order to stay home. Here's a look at our parks and the current status.

Click on the parks on the map for more information.

PARKS AND TRAILS REMAIN OPEN WITH SOME CLOSURES

Parks and trails remain open. Closures include: restrooms; all play structures and play equipment; basketball, tennis, and multi-use courts; skate park; picnic shelters; and BMX area.

Closures and use modifications protect the health and safety of visitors, employees and volunteers. The closures also reduce the non-medical demand for personal protective gear, such as masks and gloves, required for facility cleaning, and they protect infrastructure during a time when staff and volunteers are unable to respond to on-the-ground needs.
